NEW WORKS

USA VILLAGE IN VICENZA

The ICM Group, thanks to an excellent teamwork, is happy to announce the awarding of the phase 3 related to the construction of the new houses of the American Village in Vicenza (housing units divided among 7 "condos" and semi-detached houses). The amount of the awarded contract is worth more than 70 million USD.

Warmest congratulations to everyone!

WORKS IN PROGRESS

HIGH SPEED

The high-speed rail construction site, second Brescia-Verona functional lot, continues at full speed. The Cepav2 consortium (ICM, Saipem, Pizzarotti) is now particularly involved in the Lonato area. The lot is worth 1.64 billion against a total value of the work (Milan-Verona High Speed Railway Line) of 2.16 billion. Come on!

THE BYPASS TO THE TOWN OF PALIZZI MARINA

We are proceeding enthusiastically in the work, together with De Sanctis Costruzioni SpA, for the construction of the four-lane by-pass road to the SS 106 in the section of Palizzi Marina (Reggio Calabria). A close-knit team every day puts their hearts and heads into it, and the result is patent!

BOLOGNA TECHNOPOLE

Leonardo, the world's fourth most powerful supercomputer, was recently inaugurated at the Technopole in Bologna with a ribbon-cutting ceremony by President Sergio Mattarella. This "superbrain" will help develop new applications in areas such as artificial intelligence, personalized medicine, renewable energy sources, drug and materials design, bioengineering, weather forecasting and fighting climate change. ICM Group expresses great satisfaction in participating in the construction of such a prestigious and useful work, together with Cefla and DBA. It is the achievement of an important result, despite all the difficulties and the exceptional increase in costs incurred.

MILAN, THE PORTALS

The groundwork has been laid for the construction of the East tower of the work The Portals (I Portali), commissioned by Coima and located in the Porta Nuova area of Milan. An architectural project by the Citterio-Viel studio meeting unprecedented standards in terms of technological innovation and environmental sustainability, in line with the European decarbonization 2050 goals. The construction site will be certified according to PLATINUM level LEED and GOLD level WELL standards and C2C certifications of materials; moreover, the work will be built in accordance with the requirements useful for the WIRED certification. The future is already here and ICM Group is proud to fully be part of it!

CERN SCIENCE GATEWAY

The CERN Science Gateway, designed by Renzo Piano, is taking shape! It will be a facility fully dedicated to science education and outreach, aiming at encouraging young people to pursue careers in the science and technology field. It will be carbon neutral for the environment. It will be an inclusive space that, through immersive exhibits and hands-on educational activities, will enable people of all ages and backgrounds to feel part of the CERN discoveries and activities.

ICM Group, Cimolai, Renzo Piano Building Workshop and FCA Foundation together for the future!

AUSTRIA, A26 HIGHWAY

The A26 "Linzer Autobahn" highway (Linz, Austria) is a fascinating work that we see growing more and more every day! We have recently been called in to work on the A26/Westring tunnel; internal work is progressing rapidly, some of it already at the stage of the road substructure and testing of the escape routes. Come on guys!

NEWS

1 THE ICM GROUP RECEIVES THE ECOVADIS GOLD MEDAL

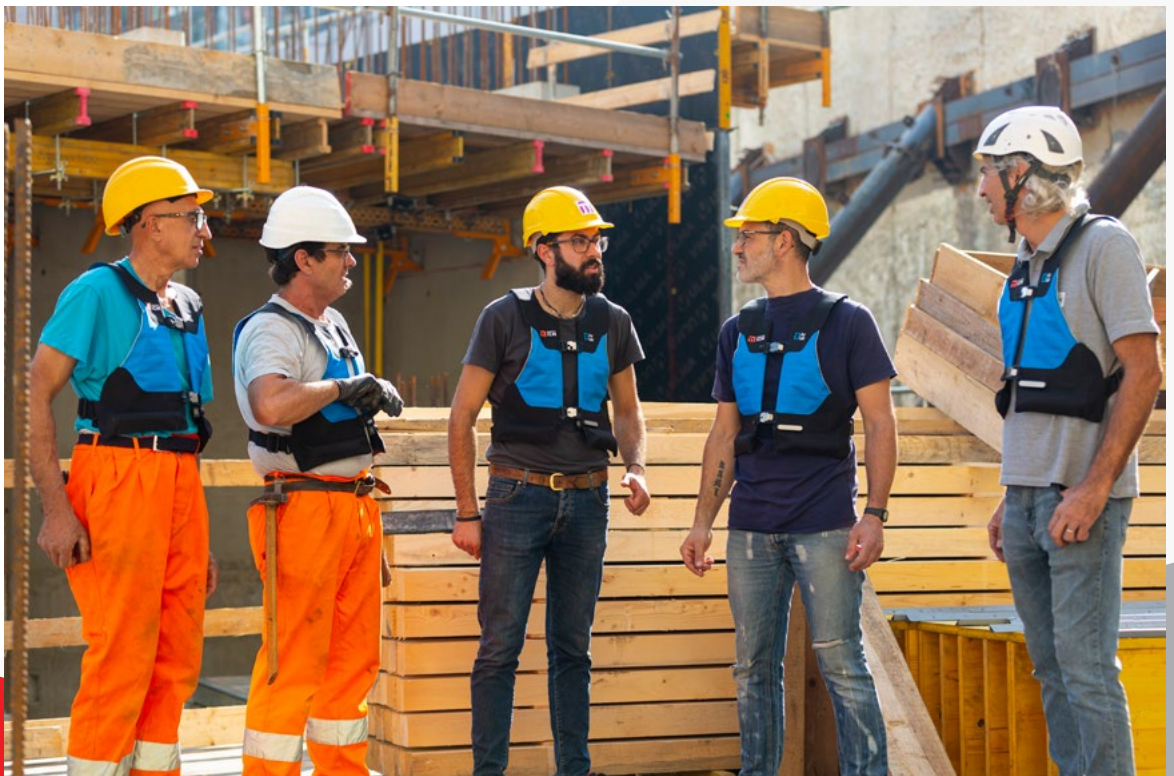

ICM Group receives the Ecovadis Gold Medal in relation to sustainability performance (environment, labor practices and human rights, ethics and sustainable procurement). A great achievement that represents a new starting point for pushing on to further developments. Congratulations to all who contributed to this improvement!

2 ICM WITH D-AIR LAB FOR THE FIRST AIRBAG FOR WORKERS AT HEIGHT

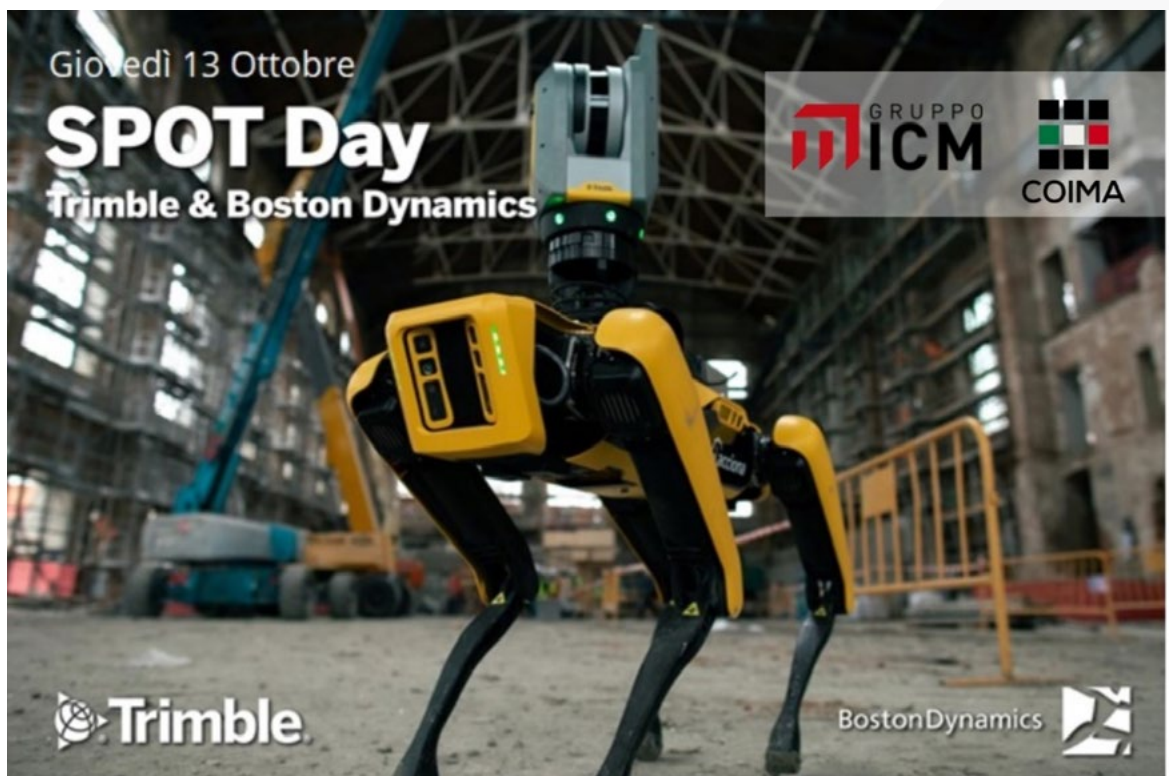

The world first airbag for protecting workers at heights certified as PPE (Personal Protective Equipment) has been officially unveiled. ICM is happy to forge this alliance with D-Air lab in order to ensure maximum security in a technological and innovative urban regeneration project such as The Portals, in Milan Porta Nuova, commissioned by COIMA that involves the construction of two towers (East and West). WorkAir can recognize a fall and inflate in just 40 milliseconds, protecting the wearers back and chest before an impact. From sports to occupational safety, the test has now become a reality! Below you may find an interview with Luca Cerato, our Protection And Prevention Service Manager.

3 SPOT LASER SCANNING FOR DIGITIZATION

In October, at the Gioia 20 construction site in Milan, the little dog scan made a foray! In fact, Laser Scanning Spot, a fantastic integration of robotic and laser scanner technologies, designed to operate safely, quickly and autonomously, and with significant contributions in terms of ESG, has arrived. We are proud to test a preview for the Milan real estate market of a technologically advanced solution that puts the focus on the digitization process!

4 ICM 2023 AGENDA DESIGNED BY FRANCESCO POROLI

We are preparing for the arrival of 2023 with our new agenda designed by Francesco Poroli, a very talented illustrator and art director!

NEW RECRUITS

NAME	FUNCTION	PROJECT/SITE	COMPANY
ELEONORA BERTELLI	CONSTRUCTION SITE TECHNICIAN - WORKS ACCOUNTANT	PETROLCHIMICO - FERRARA	ICM
LODOVICO CHINO	MANAGEMENT CONTROL OFFICER	KONZA SMART CITY - KENYA	ICM
LUCA LIZZIO	CONSTRUCTION SITE TECHNICAL OFFICE EMPLOYEE	LEONARDO DECIMOMANNU	ICM
MATTIA MARCOSIG	CONSTRUCTION SITE ADMINISTRATIVE OFFICER	COIMA GIOIA 20 MILAN	ICM
MARCELLO PERDA	SITE FOREMAN	MONTECCHIO TOLL BOOTH	ICM
MANUELA TAURINO	MANAGEMENT CONTROL OFFICER	COIMA GIOIA 20 MILAN	ICM
TOMMASO TRAVAGLINI	QUALITY CONTROL MANAGER ASSISTANT	HIGH SCHOOL VICENZA	ICM
ALBERTO TRETOLA	SITE ASSISTANT	LEONARDO CAMERI	ICM
FEDERICO BARISON	OPERATING MACHINERY DRIVER	PETROLCHIMICO - FERRARA	ICM
GIUSEPPE PETRAGALLO	MASON	PETROLCHIMICO - FERRARA	ICM
RACHID BELLAKHDIM	CONCRETE BATCHING PLANT PRODUCTION WORKER	FACTORY	SIPE
FABIO LA GAMBA	WAREHOUSE STORAGE WORKER	FACTORY	SIPE
LAKHWINDER SINGH	PRODUCTION WORKER	FACTORY	SIPE
ERIC IRIA	PRODUCTION WORKER	FACTORY	SIPE

We thank you for joining our Group and wish you all the best for a successful career!
