DELIVERING BUILDING SITES

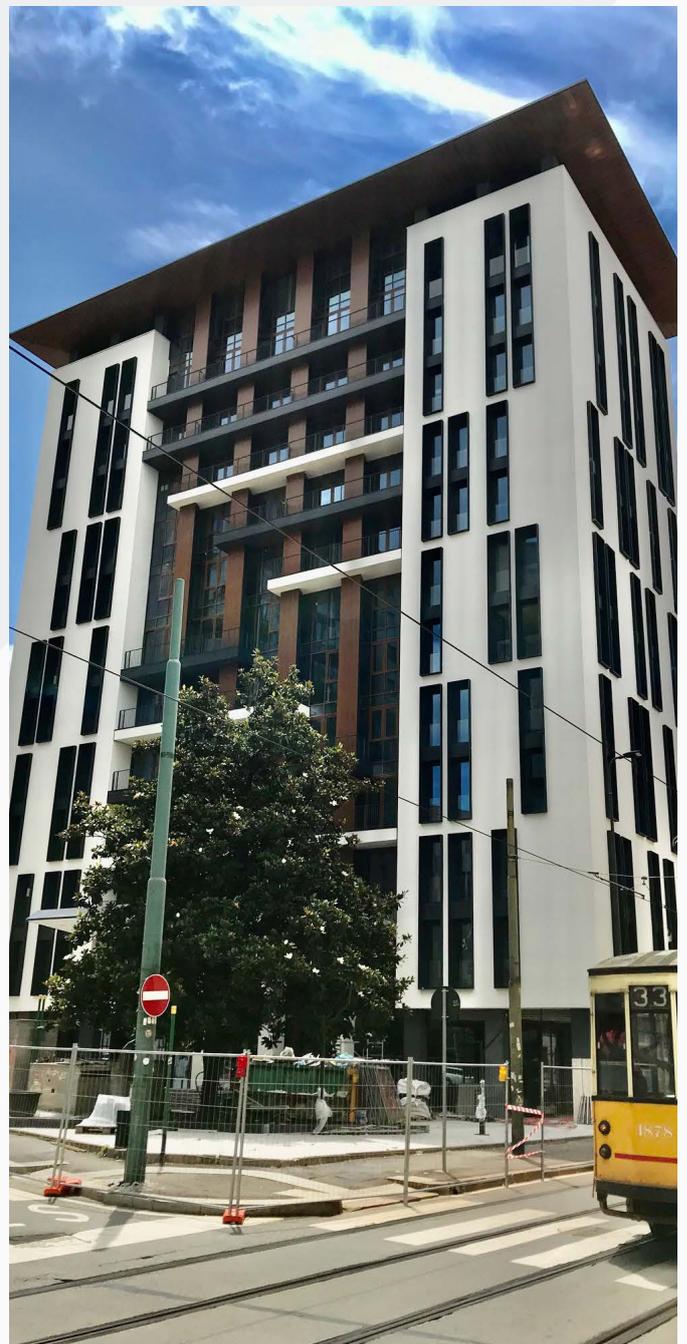

PORTA NUOVA BONNET, A SIGNIFICANT WORK IN MILAN

The renovation of the entire Bonnet tower for office use and the construction of a new adjacent building for commercial and office use make the “Porta Nuova Bonnet” project, in the beating heart of Milan, a unique work from the point of view of design and high-performance plant engineering, in order to achieve high levels of sustainability and related certifications (Leed, Well, C2C). The client is Coima Sgr, on behalf of the Porta Nuova Bonnet fund, and the amount of the work is 42 million EUR. Thanks to all the collaborators who with commitment and strength have changed the Milan skyline in the Garibaldi area.

HOTEL “THE BIG”, A LUXURY HOTEL A FEW STEPS FROM CORSO COMO

The general (architectural, plant engineering, functional and distributive) redevelopment of the luxury hotel complex called “The Big” in Milan, behind Corso Como, has made it possible to achieve a top level result in terms of structure and attention to details.

WORKS COMPLETED AT THE VENICE AIRPORT

We recently finished the demanding work that involved us together with Itinera S.p.A. at the Marco Polo Airport in Tessera (Venice). This involved the requalification and regulatory adaptation of the flight infrastructure, on behalf of Save S.p.A., and was developed through 7 steps, including the implementation of the As-built projects under BIM. Works amount: 125 million EUR apx. A great achievement, congratulations!

NEW ACQUISITIONS

RAILWAYS IN SLOVAKIA

The ICM Group, leader of a temporary joint venture, has been awarded the contract for the works to upgrade the railway line connecting the capital of the Slovak Republic, Bratislava, to the border with the Czech Republic.

58 km for a 275 million EUR contract with ZSR, the state-owned company of the Slovak Railways.

The section of construction work goes from the Devínska Nová Ves railway station (not included) to the state border of the Slovak Republic, including the Devinsle Jazero stop, the Zohor railway station, the Plavecký Štvrtok stop, the Malacky railway station, the Kutý railway station (not included) and the Brodsky stop.

The modernization of the railway section in question will be carried out by maintaining operation on the existing line while minimizing restrictions inasmuch as possible. The project to modernize the line seeks to make the greatest possible use of the existing railway section.

This important team-work result, in such a complex moment at global level, gives us positive energy and hope that we can soon get back on track with strength, determination and courage. Never give up, full throttle ahead!

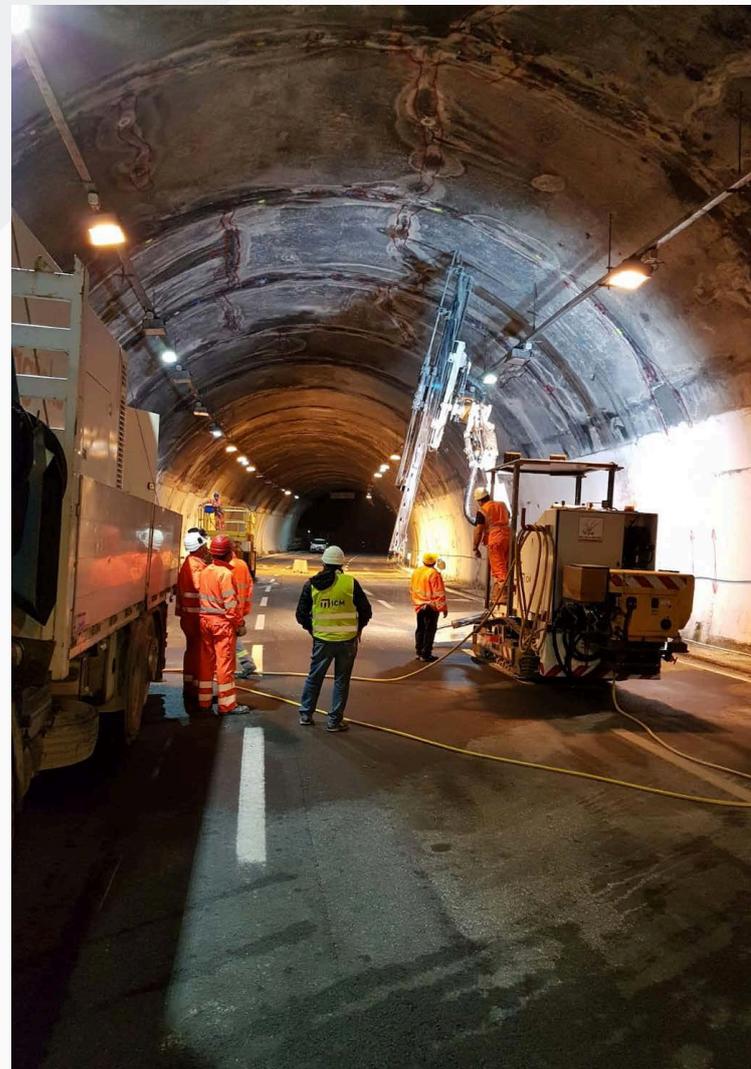

QATAR, FALCON 5/F-15 QA AMERICAN BASE

The ICM Group has won the project for the construction of the infrastructures and related services that will host the F-15 QA at the Al Udeid Air Base. The amount of the works is 525 million USD and our share is 50%.

WORKS AT THE TUNNELS IN GENOVA

On behalf of Autostrade per l'Italia S.p.A., we are contributing in a timely and efficient manner to the restoration and consolidation of the tunnels falling within the responsibility of the Genoa 1st Section Management for Motorways A/7, A/10, A/12 and A/26. The works consists into removing the existing damaged guards in the tunnels from time to time assigned and replacing them with new guards consisting of wire mesh and stainless steel corrugated sheets, which are fixed with mechanical or chemical plugs.

NEWS

ENR 2020 INTERNATIONAL RANKING

According to the ENR 2020 ranking of major international manufacturers, this year the ICM Group is ranked No. 231 in the world ranking. Congratulations to all the people who contribute every day with their skills and passion to make this Group a remarkable reality!

NAPLES, A DOME OF UNIQUE BEAUTY

A beautiful dome painted by the international artist Peter Greenaway has recently been mounted at the Chiaia stop of Line 6 of the Naples Metro; this work makes even more unique and prestigious the complex amount of works that we are carrying out, together with the Architect Uberto Siola, in view of the ambitious Neapolitan project for the realization of the “most beautiful metro in the world”. The largest free public art operation in Italy.

KONZA SMART CITY VIDEO

A significant testimony that can be seen to better understand the grandeur of the works in progress of the ICM Group at the Smart City in Konza, near Nairobi (Kenya). The future Silicon Savannah that puts sustainability and innovation first.
